## Ethical dilemmas in time of turbulence

History has shown us that in times of global crises crisis, the worst and the best in human behavior will be in full display. The coronavirus pandemic, with financial performance anxiety has created an increase of ethical dilemmas for executives. The challenge for executives is being ethical in a world characterized by moral relativism .... where guidelines for behaviors are being consistently blurred such that absolute right and wrong no longer seem to apply.

**Presented by Marc Tasse,  
Corporate Ethics and  
Financial Crimes Expert**
