Atlantic Chapter

Virtual Event

December 14, 2020

12:00pm to 2:00pm

GoToMeeting platform

Fundamentals of risk and threat modeling

This virtual workshop will address the basics of risk in the format of a case study, including how to identify, assess, and control risks. This will be an interactive event where participants will play an active role in collectively providing opinions, participating in discussions, and working out their concerns and potential strategies.
